Description :

PDF-4d5b2 | Pliny's Natural History is an astonishingly ambitious work that ranges from astronomy to art and from geography to zoology. Mingling acute observation with often wild speculation, it offers a fascinating view of the world as it was understood in the first century AD, whether describing the danger of diving for sponges, the first water-clock, or the use of asses' milk to remove wrinkles. Pliny... *Natural History: A Selection (Penguin Classics)*
